

Assertion 10 – We are unable to meet this Assertion at the time of the Audit due to the previous website being non-compliant with WCAG version 2.2 AA standard during 2025/2026.

The Parish Council has determined that there is disproportionate burden to meet all the requirements for the following reasons:

Making improvements would exceed budget for the year due to the limited funding available to a Parish Council of this size.

However since the AGAR was completed a cost effective way to move the website onto a new platform which does comply with accessibility standards has been completed.

Quarnford Parish Council – May 2026
